

Maneuver Center of Excellence

Fort Benning, Home of the

Maneuver Center of Excellence - Team of Soldiers, Families, and Civilians from the Best Army in the World

MCoE Vision

*Fort Benning, Home of the
MCoE*

An MCoE team that is adaptive and innovative,
preserves our warrior ethos, and ensures that our
Army's maneuver forces will overmatch the enemy
and accomplish the mission in current and future wars.

Leader Development

*Fort Benning, Home of the
MCoE*

- Develop and implement a maneuver leader training and education strategy to develop agile adaptive leaders committed to the Army profession who possess the knowledge, skills, abilities, and attributes to be successful on complex battlefields.

“Men will follow a good leader practically anywhere and under any conditions of battle. Therefore, the placing in positions of leadership of the right men is the most important safeguard for success in battle that a commander can have.”

MG Ernest Harmon

Training

*Fort Benning, Home of the
MCoE*

- Institutionalize lessons and innovate to ensure that our Soldiers and Leaders are grounded in the fundamentals and prepared to fight, lead, and win across the range of military operations in complex, uncertain, and changing environments.

“Excellence is an art won by training and habitation. We do not act rightly because we have virtue or excellence, but we rather have those because we have acted rightly. We are what we repeatedly do. Excellence, then is not an act but a habit.”

Aristotle

Combat Development

*Fort Benning, Home of the
MCoE*

- Develop capabilities in our combat formations to seize, retain, and exploit the initiative across the range of military operations.

“It is not so much the mode of formation as the proper combined use of the different arms which will ensure victory.”

Lieutenant-General Antoine-Henri Baron de Jomini

Doctrine

*Fort Benning, Home of the
MCoE*

- Review, revise, and apply doctrine to consolidate lessons of recent armed conflict and ensure maneuver leaders and units are prepared to fight and win across the range of military operations.

The ability to fight as a combined arms team – to integrate fire and maneuver and appropriate combinations of infantry, mobile protected firepower, offensive and defensive fires, engineers, Army aviation, and joint capabilities – will remain the Army's most fundamental and important competency.

The Army Capstone Concept, Operational Adaptability

TRADOC PAM 525-3-0, pg 19

Adapt MCoE

*Fort Benning, Home of the
MCoE*

- Adapt MCoE organization, personnel, and processes, and collaborate with other CoEs, services, and research organizations to improve the combat effectiveness of the Maneuver Force through integrated doctrine, organization, training, materiel, leadership and education, personnel, and facilities (DOTMLPF).

“Because tight centralized control of operations isn’t possible or desirable...all Regimental leaders must train their juniors to do the right things and then trust them to act independently... Leaders must teach and practice mission orders.”

COL L.D. Holder
